# the Cambro story

When William and Argyle Campbell first opened the doors at V Cambro Manufacturing in 1951, their goal was to make the highest quality hospital meal tray possible. Named the Camtray, it demonstrated that they were as committed to excellence in the foodservice industry as they were with their own products. As 2024, marked the company's 73rd year of leadership in quality, innovation and customer service, today Cambro serves the world with the industry's most complete selection of products for widely diverse segments of the foodservice business. The future is certain to bring great changes to our industry. Yet one thing that will remain a constant is Cambro's tradition of continually developing new products that help foodservice operators save time and money, increase sales, reduce labor and improve service. In the years ahead, guided by the commitment of its founders to innovation, quality, and value, Cambro Manufacturing will still be the leader in serving the foodservice industry and you, our valued customer.

### CAMRACK® 4-IN-1 WAREWASHING SYSTEM

The Camrack System will protect glassware and keep it clean until the next event, eliminating the need for rewashing.

### **Efficient Washing**

Open inside compartments provide thorough circulation of water and cleaning solutions and promote quick and thorough drying.

Long-lasting polypropylene Camracks are built to withstand chemicals and high temperatures up to 200°F (93°C).

### **Sanitary Storage**

Closed outer walls keep fingers and contaminants out and reduce risk of breakage and injury. The Camrack Cover and Camdolly make this system completely enclosed. Glassware stays clean in storage, eliminating rewashing.

### **Inventory Control**

A variety of base rack colors help identify at a glance both contents and quantity per rack. Available in 10 colors.

### Safe, Sanitary **Transportation**

Camracks can be transported across large campuses or to off-site locations in one single unit.

Easy to grip handles and smooth overlapping sides facilitate safe handling.

Content labeling options include one-color custom hot stamping or pre-printed clips.

#### HIGH DENSITY STORAGE FLOOR TRACK SYSTEM

Maximize storage capacity by creating storage aisles in all available space. This simple system is composed of stationary starter units anchored to a raised floor track system at both ends with high density mobile units installed in between. Easy to install track requires no drilling or gluing.

#### **Increases Storage Capacity Up To**

50%

High Density Mobile Units are available with factory assembled post kits, vented or solid shelves and high density casters and bumpers. Full track and extension kits ship complete with required hardware. Stationary Starter Units are required to anchor the system at both ends. Choose from a wide selection of sizes with 4 or 5 shelves to maximize storage space. (see Premium Series spec pages).

Stationary Unit\*

Raised Floor Track provides a smooth and level surface to easily roll mobile units. Raised track ensures dirt will not get trapped and is easy to clean. Aluminum track and stainless steel hardware are rust resistant.

\*It is recommended to use a stationary unit for every 15' of track to further stabilize the system.

**High Density Mobile Units** 

Grooved casters roll easily and securely

Stationary Unit

Raised track connects easily to the bottom of a stationary unit
